Congratulations!

you are a

DRIVER PROMOTER

**Well done on completing the questionnaire.
The answers you gave tell us that you are a DRIVER PROMOTER.**

As a Driver Promoter you are fast-paced, active and enjoy being in control. You are friendly but act firmly and boldly to get your way. You believe strongly in your ability to do things and have the self-confidence to succeed. You are clear about the results you want and use your outgoing personality to reach your objectives. You are often inspirational and come up with great ideas. A natural leader, you set the pace and get things moving.

We're all the same but different

Researchers found that whilst people are physically different we share personality styles and these were divided into four, Driver, Promoter, Supporter and Analyser.

So being a Promoter Driver means you are a mix of these two styles and as you'll discover each has its own strengths.

Each personality is good at some things and not so good at others and one style is not better or worse than another.

We are not all the same and we each like different things. We have our own taste in music, clothes, books, games, foods and the career we'd like to do.

We also get along better with some styles than others. Often our friends are like us because we share the same personality and interests.

However you need to get along with people of all styles and be tolerant and respectful of others. Just because they like pizza and you like burgers doesn't make them better or worse than you.

Personality styles

Here's a look at the four main styles. You can be just the one style or a mix of two.

DRIVERS are Adventurers, energetic, competitive and determined. They like to lead, take action, get results and love a challenge. Winning is important.

PROMOTERS are Socialisers, outgoing and fun people. They are talkative, enthusiastic and motivating. They are great communicators who inspire others with their imagination.

SUPPORTERS are Helpers, kind, dependable, and practical. They are easy to get along with, great listeners, generous and they enjoy helping people.

ANALYSERS are Thinkers, great with facts and numbers. They are well-organised, pay attention to details, don't rush into things and are cautious and accurate.

JUST FOR FUN LET'S IMAGINE

If you were a Teenage Mutant Ninja Turtle you would be **Leonardo**, he's the leader of the group and keeps the others in line.

On The Simpsons show you are **Bart**, always looking for an advantage, cheeky, full of energy and can't sit still.

On Stars Wars you are like **Darth Vader**, follow my rules or else, a strong no-nonsense leader who must be obeyed.

Now if you were at Hogwarts with Harry Potter, then the Sorting Hat would put you in **Slytherin** house "were those cunning folk use any means to achieve their ends".

In Marvel comics you are **Captain America**, you have a clear and confident vision of what must be done and you get on an do it.

ABOUT YOU

Driver Promoters are outgoing, fast-paced people who, like yourself, enjoy being active and on the go. You are not easily sidetracked, and you are confident in your abilities. If you fail, it doesn't worry you too much; you just bounce back and try again. You are determined, but other people sometimes think you are stubborn. You say what you think and enjoy being in charge. You can be a bit bossy, but that's because you want things done your way.

You get the big picture and focus on results instead of details. You are great at solving problems and you love a challenge. You have heaps of energy, in fact, people who take too long or can't make up their mind can annoy you. Your motto would be Nike's 'just do it'.

You are a born leader with good people skills. You enjoy meeting new people and making friends, and you don't mind being the centre of attention. You're imaginative, creative and fun to be with. You are also enthusiastic and encouraging and these are strong leadership qualities.

As a child, you were an on-the-go adventurer, who liked to be around people and have fun. Your report card probably said 'can't sit still and talks too much'. You love a challenge, especially when you end up the winner.

CHOOSE A CAREER THAT FITS YOU

You've probably been asked what you want to be when you grow up.

Some of you will have an idea of the career you want and others won't. And that's OK you have time to make up your mind and many people even after graduating still don't know what they want be.

During your working life you will have many different jobs. Some jobs you will like and others you won't. Finding the right one is a challenge.

So how will you know what the right one is, when many of the jobs around today may disappear by the time you're ready for work and there will be new jobs that we don't yet know what they will be.

Here's what we do know. Future jobs will require people to have technology skills and a qualification. More jobs will need STEM subjects (Science, Technology, Engineering and Maths) and 8 out of 10 jobs will require a Certificate III or higher and 30% of those will require a university degree. Your chances of getting a job without a qualification will be difficult.
